

# THARUN SHREE

Tiruvannamalai, TamilNadu 606802

📞 7418697934    ✉ [Gmail](#)    [in](#) [LinkedIn](#)    [GitHub](#)    [Portfolio](#)

## Summary

Motivated AI & Data Science undergraduate with hands-on experience in Machine Learning, Deep Learning, and Data Analytics through internships and end-to-end projects. Proficient in Python, Scikit-learn, XGBoost, PyTorch (YOLOv5), Pandas, NumPy, and Power BI. Skilled in building ML pipelines, predictive models, and interactive dashboards. Actively exploring TensorFlow and NLP. Passionate about applying data-driven solutions to real-world business challenges.

## Education

### Vinayaka Mission's Engineering College

*B.E – Artificial Intelligence and Data Science*

**Sep 2022 – 2026**

*Salem, Tamil Nadu*

## Relevant Coursework

- |                  |                    |                         |                           |
|------------------|--------------------|-------------------------|---------------------------|
| • Data Analytics | • Machine Learning | • Data Visualization    | • Big Data Analytics      |
| • Data Science   | • Data Engineering | • Business Intelligence | • Artificial Intelligence |

## Experience

### PySpiders Institute

*Data Science Intern*

**Dec 2025 – Present**

*Bengaluru, Karnataka*

- Developed 5+ end-to-end Data Science and Analytics projects using Python, SQL, Scikit-learn, and Power BI, covering data ingestion, preprocessing, exploratory data analysis (EDA), model building, and reporting.
- Processed, cleaned, and transformed large-scale datasets with 200,000+ records using Pandas, NumPy, and SQL, handling missing values, duplicates, outliers, and inconsistencies.
- Designed ETL workflows including data extraction, transformation, feature engineering, and data preparation to improve dataset quality for machine learning and analytics applications.
- Built interactive Power BI dashboards using Power Query, DAX measures, and KPI cards, reducing manual reporting efforts by approximately 30% through automated business intelligence.
- Designed and interpreted A/B tests to validate analytical hypotheses and support data-driven business decisions.
- Optimized SQL queries using JOINS, CTEs, Subqueries, and Window Functions for efficient data retrieval and business intelligence reporting.
- Maintained structured Data Science workflows using Git/GitHub for version control, reproducibility, and project management.

### NoviTech R&D Private Limited

*Machine Learning Intern*

**June 2025 – July 2025**

*Coimbatore, Tamil Nadu*

- Built and deployed predictive ML models using classification and regression algorithms (Logistic Regression, Random Forest, XGBoost) with end-to-end model development lifecycle.
- Applied feature engineering, hyperparameter tuning, and cross-validation techniques to optimize model accuracy, precision, and recall on real-world datasets.
- Performed data preprocessing, exploratory data analysis (EDA), and model performance evaluation using Python, Pandas, NumPy, and Scikit-learn.

## Projects

### Intelligent Video Surveillance | *Computer Vision, Deep Learning* [GitHub](#)

- Developed an intelligent vehicle detection, tracking, and speed estimation system using Python, YOLOv5, OpenCV, and Computer Vision techniques for real-time traffic surveillance.
- Implemented object detection, multi-object tracking, video processing, and speed calculation to improve traffic monitoring accuracy and automated vehicle analytics.

### Credit Card Fraud Detection | *Machine Learning* [GitHub](#)

- Built an end-to-end fraud detection pipeline using Python, Pandas, NumPy, Scikit-learn, XGBoost, SMOTE, Feature Engineering, Pipeline, and ColumnTransformer to classify fraudulent transactions from highly imbalanced datasets.
- Performed Data Cleaning, ETL, Exploratory Data Analysis (EDA), Hyperparameter Tuning using GridSearchCV, and Model Evaluation to improve precision, recall, and fraud detection performance.

## Cryptocurrency Market Analysis | *Data Analytics* [GitHub](#)

- Analyzed cryptocurrency market data using Python, Pandas, NumPy, Matplotlib, Seaborn, SQL concepts, Data Cleaning, Data Transformation, and Exploratory Data Analysis (EDA).
- Created insightful visualizations to evaluate price trends, trading volume, volatility, correlations, and market performance for data-driven investment analysis and reporting.

## Zepto Sales Analysis Dashboard | *Power BI* [GitHub](#)

- Designed an interactive Business Intelligence dashboard using Microsoft Power BI, Power Query, DAX, Data Modeling, ETL, KPI Dashboards, and Data Visualization techniques.
- Analyzed sales trends, customer purchasing behavior, revenue growth, and product performance to generate actionable business insights and support data-driven decision-making through automated reporting.

## Technical Skills

---

**Programming Languages:** Python, SQL (SQL\*Plus)

**BI & Visualization:** Microsoft Power BI, Power Query, DAX, KPI Dashboards, Data Storytelling, Microsoft Excel (Pivot Tables, VLOOKUP, Charts)

**Data Analytics:** Exploratory Data Analysis (EDA), Data Cleaning, Data Transformation, ETL, Statistical Analysis, Hypothesis Testing, Data Modeling

**Machine Learning:** Linear Regression, Logistic Regression, Decision Tree, Random Forest, XGBoost, K-Nearest Neighbors (KNN), Support Vector Machine (SVM), Naive Bayes, K-Means Clustering, Feature Engineering, GridSearchCV, SMOTE, Pipeline, ColumnTransformer

**Deep Learning & Computer Vision:** TensorFlow, YOLOv5, OpenCV (cv2)

**Statistics:** Descriptive Statistics, Inferential Statistics, Probability, Hypothesis Testing, Regression Analysis

**Big Data & Warehousing:** Databricks, Hadoop, HDFS, MapReduce, PySpark, Snowflake, Data Warehouse, ETL Processing

**Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, imbalanced-learn (SMOTE)

**Developer Tools:** VS Code, Jupyter Notebook, Google Colab, Git, GitHub

## Certifications

---

### Machine Learning Internship Certificate | *NoviTech R&D Private Limited*

**June 2025 – July 2025**

- Certified completion of one month Machine Learning internship at NoviTech R&D Private Limited, Coimbatore.

### Data Analytics Job Simulation | *Deloitte x Forage*

**June 2026**

- Completed practical tasks in Data Analysis and Forensic Technology simulating real-world Deloitte workflows.

### Data Visualisation: Empowering Business with Effective Insights | *Tata x Forage*

**June 2026**

- Completed tasks in Framing Business Scenarios, Choosing & Creating Effective Visuals, and Communicating Insights and Analysis.

### Green Skills and Artificial Intelligence | *Edunet Foundation, AICTE & Shell*

**January 2025**

- Completed foundation course on Green Skills and Artificial Intelligence under the Skills4Future Program in collaboration with AICTE and Shell India.
