

THARUN SHREE B

DATA SCIENTIST

b.tharun066@gmail.com | +91 7418697934 | Tiruvannamalai, TamilNadu

[LINKEDIN](#) | [GITHUB](#) | [PORTFOLIO](#)

SUMMARY

Aspiring Data Scientist skilled in Python, SQL, Power BI, and Machine Learning with experience in EDA, ETL, Data Visualization, Feature Engineering, Predictive Analytics, and Model Evaluation and dashboard development using Pandas, NumPy, and Scikit-learn libraries.

PROJECTS

Credit Card Fraud Detection | Machine Learning | [GITHUB](#)

- Developed a **Credit Card Fraud Detection** model using **XGBoost, SMOTE, Feature Scaling, and Classification Techniques** to identify fraudulent transactions in highly imbalanced datasets.
- Utilized **Python, Pandas, NumPy, Scikit-learn, XGBoost, and EDA** for data preprocessing, fraud prediction, model evaluation, and improving detection performance with high recall.

Crypto Currency Market Analysis | Python | [GITHUB](#)

- Utilized **Python, Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), and Data Visualization** techniques to analyze cryptocurrency market data.
- Analyzed **price trends, trading volume, monthly and yearly performance, correlations, and cryptocurrency behavior** to generate actionable insights for market analysis and decision-making.

Zepto Sales Analysis Dashboard | Microsoft Power BI | [GITHUB](#)

- Utilized **Power BI, Power Query, DAX, Data Modeling, Data Cleaning, Data Transformation, KPI Analysis, Business Intelligence, and Data Visualization** techniques to build an interactive sales analytics dashboard.
- Analyzed sales performance, customer purchasing behavior, product trends, revenue growth, and top-performing categories to generate actionable business insights and support data-driven decision-making.

Intelligent Video Surveillance | Deep Learning & Computer Vision | [GITHUB](#)

- Developed a real-time vehicle detection and speed tracking system using **YOLOv5, PyTorch, OpenCV, and Python** for traffic surveillance.
- Applied **Deep Learning, Computer Vision, Object Detection, and Vehicle Tracking** techniques to monitor vehicle movement and estimate speed from video streams.

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Data Tools:** Excel, Power BI
- **Data Analytics:** EDA, Data Cleaning, Data Preprocessing, Statistical Analysis
- **Machine Learning:** Regression, Classification, Decision Tree, Random Forest, Scikit-learn, SMOTE, XGboost,CV
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Version Control:** Git, GitHub

EDUCATION

B.E – Artificial Intelligence & Data Science | CGPA: 7.5/10

2026

- Vinayaka Mission's Engineering College Salem, Tamil Nadu.

TRAINING

Data Science Trainee | PySpiders Institute (Ongoing)

- Pursuing a comprehensive Data Science training program.
- Completed Advanced Python, SQL, Excel, Statistics, Machine Learning, and Web Scraping modules.
- Developed hands-on skills in data cleaning, data analysis, visualization, and predictive modeling.
- Working with Python, Pandas, NumPy, Power BI, SQL, and Machine Learning algorithms.
- Building real-world projects in Data Analytics and Machine Learning.

INTERNSHIP

Data Analytics Intern | Novi Tech | (June 2025)

- Performed Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), and Data Visualization on real-world datasets to uncover trends and generate actionable insights.
- Utilized Python, SQL, Excel, and Power BI to analyze business data, create reports, and support data-driven decision-making.

Machine Learning Intern | Novi Tech | (July 2025)

- Built and evaluated Machine Learning models using classification and regression techniques to solve predictive analytics problems. Applied Feature Engineering,
- Model Training, Hyperparameter Tuning, and Performance Evaluation to improve model accuracy and reliability.

CERTIFICATIONS

- Presented "Intelligent Video Surveillance" at a National Level Conference (April 2025).
- Green Skills and Artificial Intelligence | Edunet Foundation, AICTE & Shell India (Jan 2025).
- Explore Machine Learning using Python | Infosys Springboard (Jul 2024).
- Python for Data Science | Infosys Springboard (Jul 2024).
